Federal Rule of Civil Procedure 45(c), (d), (e), and (g) (Effective 12/1/13)
(made applicable in bankruptcy cases by Rule 9016, Federal Rules of Bankruptcy Procedure)

(c) Place of compliance.

(1) *For a Trial, Hearing, or Deposition.* A subpoena may command a person to attend a trial, hearing, or deposition only as follows:

- (A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or
- (B) within the state where the person resides, is employed, or regularly transacts business in person, if the person
 - (i) is a party or a party's officer; or
 - (ii) is commanded to attend a trial and would not incur substantial expense.

(2) *For Other Discovery.* A subpoena may command:

- (A) production of documents, or electronically stored information, or things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and
- (B) inspection of premises, at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) *Avoiding Undue Burden or Expense; Sanctions.* A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction — which may include lost earnings and reasonable attorney's fees — on a party or attorney who fails to comply.

(2) *Command to Produce Materials or Permit Inspection.*

(A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises — or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

(i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.

(ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) *Quashing or Modifying a Subpoena.*

(A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:

- (i) fails to allow a reasonable time to comply;
- (ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);
- (iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or
- (iv) subjects a person to undue burden.

(B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:

- (i) disclosing a trade secret or other confidential research, development, or commercial information; or

(ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

(C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

- (i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and
- (ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) *Producing Documents or Electronically Stored Information.* These procedures apply to producing documents or electronically stored information:

(A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.

(D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) *Claiming Privilege or Protection.*

(A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

- (i) expressly make the claim; and
- (ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

...

(g) *Contempt.* The court for the district where compliance is required — and also, after a motion is transferred, the issuing court — may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

INSTRUCTIONS

1. Each Request must be responded to separately and specifically. Each Request shall be answered fully unless it is in good faith objected to, in which event the reason for Your objection shall be stated in detail, as set forth below. If an objection pertains only to a portion of a request, or a word, phrase or clause contained within it, You are required to state Your objection to that portion only and to respond to the remainder of the Requests.

2. Electronically stored information must be produced in accordance with the following instructions:

- a) Images. Black and white images must be 300 DPI Group IV single-page TIFF files. Color images must be produced in JPEG format. File names cannot contain embedded spaces or special characters (including the comma). Folder names cannot contain embedded spaces or special characters (including the

comma). All TIFF image files must have a unique file name, i.e. Bates number. Images must be endorsed with sequential Bates numbers in the lower right corner of each image. The number of TIFF files per folder should not exceed 1000 files. Excel spreadsheets should have a placeholder image named by the Bates number of the file.

b) Image Load File.

- a. Concordance® Data File. The data file (.DAT) contains all of the fielded information that will be loaded into the Concordance® database. The first line of the .DAT file must be a header row identifying the field names. The .DAT file must use the following Concordance® default delimiters: Comma ASCII character (020) Quote p ASCII character (254). Date fields should be provided in the format: mm/dd/yyyy. Date and time fields must be two separate fields. If documents includes imaged emails and attachments, the attachment fields must be included to preserve the parent/child relationship between an email and its attachments. An OCRPATH field must be included to provide the file path and name of the extracted text file on the produced storage media. The text file must be named after the FIRSTBATES. Do not include the text in the .DAT file. For Documents with native files, a LINK field must be included to provide the file path and name of the native file. The native file must be named after the FIRSTBATES.
- b. Concordance Image® OR Opticon Cross-Reference File. The image cross-reference file (.LOG or .OPT) links the images to the database records. It should be a comma-delimited file consisting of seven fields per line with a line in the cross-reference file for every image in the database with the following format: ImageID,VolumeLabel,ImageFilePath,DocumentBreak,FolderBreak,BoxBreak,PageCoun.
- c) Document Text. Text must be produced as separate text files, not as fields within the .DAT file. The full path to the text file (OCRPATH) should be included in the .DAT file. It is recommended document level ANSI text files, named per the FIRSTBATES/Image Key. Extracted text files must be in a separate folder, and the number of text files per folder should not exceed 1,000 files. There should be no special characters (including commas in the folder names). Text files must be provided on a document level.
- d) Native Production for Certain File Types. File types that reasonably require viewing in their native format for a full understanding of their content and meaning must be produced in native format. These include, but are not limited to, spreadsheets, spreadsheet-like files (Microsoft Excel, comma separated values, tab separated values, etc.), Microsoft PowerPoint or other special presentation files, database files, and audio/visual files. Provide an image of a Bates numbered slip sheet indicating the presence of a native file, and include

the path to the native as a field in the .dat file. Name the produced native file with the Bates number corresponding to the slip sheet for the file. Group native files within incrementally named “NATIVE” directories, separate from images directories.

- e) De-duplication. Produce a single copy of each electronic document for which exact duplicates exist. For email messages, consolidate duplicates based on MD5 hash generated from the BCC, Body, CC, From, IntMsgID, To, and Attach properties. For email attachments and standalone electronic files, consolidate duplicates based on MD5 hash of the entire file.
- f) Metadata. Produce extracted metadata for each document in the form of a Concordance compliant load file (.dat). The first line of the .DAT file must be a header row identifying the field names. The .DAT file must use the following Concordance default delimiters:
Comma , ASCII character (020)
